**Company Representatives at AMERICANA 2013:**

Charles Popenoe, III, President

**Company Profile:**

Stress Indicators Inc. develops, manufactures and sells specialized visual indicating devices for the industrial and OEM market. Our products include load-indicating bolts and studs. We convert quality fastener products into SmartBolts® direct tension indicating fasteners.

**Product Line(s):**

Visual tension indicating fastening technology called SmartBolts – the only one of its kind on the market today. SmartBolts takes the guesswork out of fastening.

**Objective(s) at AMERICANA 2013:**

- Connect with representatives and distributors seeking to grow their business with a new technology and help us expand into the Canadian market.
- Build customer base particularly in Canada and other regions
- Meet potential business partners with a demonstrated track record of success at introducing new products
