Michael Vest, Sales Director, Mobile: (304) 964-7645,  
Rob Newsome, Sales Director, Mobile: (304) 410-5485

### **Company Profile:**

Located in the heart of West Virginia coal country, the Vossloh Track Material (Mining Division) is an essential supplier of industrial railroad track material for mine sites and underground tunnels. Vossloh Track Material is part of Vossloh North America, a leader in rail infrastructure. Vossloh companies provide rail infrastructure solutions to all modes of rail transport, including special trackwork, industrial and crane rail, fasteners, and railroad switch machines.

### **Product Lines:**

- Industrial Railroad Track Material
- Turnouts
- Joint Bars
- New Rail Relay Rail
- Mine Ties
- Track Tools

### **Objectives(s) at CIM 2015:**

To find a Distributor, Wholesaler, Mining Companies and mining contractors in the Canadian region with:

- Looking for new markets to sell our rail, rail components and trackwork.
- Ideal customers would be the end user which would be mines that use rail both underground and in above ground plant facilities.
- Secondary targets would be mining rail contractors and mining supply distributors that service the Canadian market.
