**Network with your Colleagues from  
around the World at the Premier Power  
Generation Conference & Exhibition**  
Coal. Gas. Nuclear. Renewables. It's All Covered!

**World Class Conference Sessions:**

ELECTRIC POWER Conference consists of 9 consecutive tracks including: Coal and Solid Fuel Power Plants, Gas/Turbine/Combined-Cycle Power Plants, Nuclear Energy, Renewable Energy, Plant Maintenance, Plant Operations, Environmental Strategy and Compliance Technologies, Environmental Strategy and Compliance Technologies II, and Power Industry Trends/Future Power Strategies. In addition to the 9 conference tracks you can also attend the Plant Managers Institute, PRB Coal Users Group or the Combined Cycle Users Group at an additional charge.

**Large-Scale Trade Show:**

Meet face-to-face with 400+ exhibiting companies who are showcasing the industry's latest products & services. You'll get a first-hand look at the newest technologies that are fueling the Power Generation Industry today and in the Future.

**Targeted Networking Opportunities:**

Share Your Ideas with thousands of your peers at end-of-day Networking Receptions on the Exhibit Floor! Walk away with actionable insights that you can implement right away.

**ELECTRIC POWER IS A PROUD MEMBER OF THE U.S. COMMERCIAL SERVICE'S INTERNATIONAL BUYER PROGRAM.** International attendees will be able to take advantage of the following free services on-site: an Exclusive Welcome Reception, International Business Lounge, Interpreters, Export Counseling, Matchmaking, and a Free Export Interest Directory.

250+ Speakers  
50+ Conference Sessions  
4,500+ Attendees  
400+ Exhibits  
3 Days of Educational Content  
& Outstanding Networking Opportunities  
**This is ELECTRIC POWER 2012!**
