## **Company Representatives at CanWEA 2012:**

Jim Rose – Vice President  
[jrose@windemuller.us](mailto:jrose@windemuller.us)  
Rick Johnson P.E. - Renewable Energy Division Manager  
[rjohnson@windemuller.us](mailto:rjohnson@windemuller.us)

## **Company Profile:**

Windemuller is an industrial electrical contractor that has now grown to become an advanced technology service company, handling anything from phone and security systems, to traffic signals, IT and renewable energy projects.

## **Services:**

Windemuller has strong experience with the installation and operation of many types of wind turbines. The company also has the capability to design and install complete electrical and communication wind farm systems from substation to tower wiring. Providing reliable operations and maintenance technicians to repair, maintain and inspect wind turbines. Additional services include: automation, communication and IT, electrical and outdoor utility services to the renewable and industrial markets.

## **Objectives at CanWEA 2012:**

- Meet Canadian service maintenance and operation companies, renewable energy developers and wind turbine manufacturers
- Look for joint venture partners or licensing opportunities
