Company Representatives at the 23rd World Mining Congress:

Eric Montano, Business Development Specialist

Melanie Bolduc, Principal MineSight Specialist

Richard Moffett, Toronto Branch Manager

Company Profile:

Mintec, Inc. is a software developer and service provider for the mining industry. Founded in 1970, Mintec has grown into a global network of mining professionals providing technology, service and support in the most complex mining operations in the world.

Product Line(s):

Mintec will be promoting *MineSight*, a comprehensive modeling and mine planning software platform that offers integrated solutions for exploration, modeling, design, scheduling and operation.

Objectives(s) at the 23rd World Mining Congress:

Mintec will be looking to connect with mining executives and other decision makers in the mining industry. In particular, they are looking to meet with mining companies, specifically with regard to mine planning and the operation of active mines.
