Company Representatives at CIM 2015:

Christie Kearney, M.S. Civil Engineering
Duane Kokkinen, Vice President
Dennis Murr, B.S. Metallurgical Engineering
Philip Solseng, Vice President

Company Profile:

Barr is an employee-owned consulting company integrating engineering and environmental expertise to help clients develop, manage, and restore natural resources. They serve the power, mining, and fuels industries, natural-resource-management organizations, and others with complex problems. Their clients' projects take them across the Midwest, throughout the Americas and around the world.

Product Lines:

Mining and Environmental Engineering Services including:

- Resource Estimation, Mine Planning, Mineral Process/Metallurgical Engineering
- Structural, Mechanical, Geotechnical, Civil and Electrical Engineering
- Geochemistry, Hydrology/Hydrogeology
- Environmental Permitting
- Water Treatment Engineering
- Mine Reclamation and Closure

Objectives(s) at CIM 2015:

To develop professional networks with full service mine engineering and environmental firms with offices in the U.S. and Canada
