Where Vision Takes Flight

Company Representative(s) at Health Achieve 2016:

Kimberly Harding, President
Cell: (240) 382-8634
Email: kharding@monarchinnovation.com

Company Profile:

Monarch Innovation Partners is a progressive, multi-disciplinary consulting practice that provides market leading and emerging technology solutions, subject matter expertise, and customer relationship management in the following business domains:

- Healthcare Delivery and Payer Technology Platforms
- Clinical Trial Research and Clinical Innovation Platforms
- Clinical and Population Health Data Registries
- Enterprise IT Architecture Consulting and Training
- IT Program and Project Management
- Research and Development of Emerging Technology Platforms
- Healthcare Interoperability Standards for Clinical, Administrative and Financial Structured and Unstructured Datasets
- Mobile Health and Telehealth Communication Solutions
- 3D Medical Printing Solution Consulting

Objectives(s) at Health Achieve 2016:

- Find potential customers who would like to participate as a Pilot Site and Early Adopter of new solutions and prototypes for healthcare data management and clinical trial data exchange research projects for chronic and infectious disease collaboration efforts (local, regional and international cohorts)
- Find a partner or licensee within the healthcare payer administrative simplification, benefit management and claims processing domain, healthcare analytics, drug discovery, medical device and life science research collaborators
- Collaborative partnerships with Open Source Technology suppliers
- Find partners that provide GxP (i.e. Good Clinical Practices, Good Manufacturing Practices) expertise from a business process engineering perspective, as well as process excellence (Six Sigma, Lean, etc.) / Total Quality Management organizations
