Company Profile:

At Penn Medicine, we are dedicated to discoveries that advance science, to outstanding patient care throughout the world, and to the education of physicians and scientists who carry on our legacy of excellence.

We are a world-renowned academic medical center, and strive to improve the health and well-being of people through research, education, clinical care and community service. We are proud of our commitment to service and strive to use discovery and rigorous research to benefit our neighborhoods, our city and our world. We embrace the opportunity to teach others, to learn from our partners, and to care for patients with skill and dignity.

Products:

In an age where a trip halfway around the world can be made in a matter of hours, it is easier than ever to seek out the very best medical care – regardless of where the care is offered.

Penn Global Medicine was established to help international patients and their families access the excellent medical care available at Penn Medicine. This highly interactive program assists patients and their families with all of their health care and travel needs, before, during and after their medical care.

Through Penn Global Medicine, international patients enjoy coordinated, concierge services designed to make their visit to Penn Medicine as comfortable and convenient as possible. Services are tailored to meet personal preferences and cultural needs throughout all aspects of care.

Objectives(s) at Health Achieve 2016:

- To meet with health ministries, insurance companies, referring physicians and multi-national companies.
