

## **ALTERNATIVE ENERGY OPPORTUNITIES IN CANADA GLOBE 2004**

The U.S. Commercial Service, Vancouver, Canada invites U.S. environmental and alternative energy firms to participate in the U.S. pavilion featured at Globe 2004, March 31 – April 2, 2004. Globe 2004 is a multi-sectored trade fair featuring environmental and alternative energy technologies and services.

Globe 2004 offers U.S. firms the most comprehensive exposure available to the Canadian market, as well as exposure to a multitude of attendees from other markets, especially in Asia.

**NOTE: U.S. manufacturers and service providers of alternative energy sources can gain exposure to the Canadian market and develop business contacts by attending a special workshop during Globe 2004. This workshop will provide a forum for smart energy and alternative energy technology providers and independent power producers to explore strategic alliance opportunities.**

As an alternative to exhibiting, the U.S. Commercial Service is also offering the following option to take advantage of Globe 2004.

### **Gold Key Service \$750.00**

Specifically designed to provide new-to-market and new-to-export firms with a low-cost means to establish distribution and promote their products in Canada.

1. One-on-one appointments with pre-qualified, potential business partners;
2. Access to special conference sessions with Western Canadian companies,
3. Product presentation to Asian agents/distributors;
4. Invitation to an exclusive networking reception
5. Complimentary show pass.
