**Be a part of the U.S. pavilion at India's largest aviation sector expo and take the easiest route to meet potential business partners and sell your products in India**

India Aviation 2010 is the premier civil aviation exhibition in India, organized by the Ministry of Civil Aviation and Federation of Indian Chambers of Commerce and Industry (FICCI). This four-day event offers U.S. companies a unique opportunity to market their company's products and services directly to Indian public and private sector decision-makers. It also provides an opportunity to learn the latest market and regulatory trends in India's rapidly growing civil aviation sector

**U.S.A. is the focus country at India Aviation 2010 and will be prominently featured. Hence, U.S. companies will have the best opportunity to showcase latest technologies, network with key Indian officials and build lasting commercial relationships**

***Join now to participate in this exciting market!***

**[CLICK HERE to register now](#)**

**Participation is limited on a first-come first-served basis**

**Application deadline: January 31, 2010**

#### Why you should join the U.S. pavilion?

- It's the largest trade show for the aviation sector in India
- It's your chance to meet over 5,000 trade visitors and 200 exhibitors and international participants from 17 countries
- You get invited to special networking events
- You get to showcase your company and products to key government and industry buyers
- Experienced U.S. Commercial Service India staff to support you for on-site meetings
- Support, advice and assistance from the Export-Import Bank of the United States, and the U.S. Trade and Development Agency along with the U.S. - India Aviation Cooperation Program and the American Chamber of Commerce

#### Why India is a great market for you?

- Multi-billion dollar airport infrastructure investments planned to handle growing air traffic of over 580 million passengers by 2016-17
- Airport Authority of India plans investment of \$1 billion to modernize 35 non metro airports. It also plans to develop 10 green field airports
- Foreign equity up to 100% permitted in airport infrastructure
- Air traffic services at 80 airports to be upgraded
- Upcoming multi modal cargo hubs
- Growing opportunities in MRO with a potential to service a fleet of 1000 commercial & 500 general aviation aircraft
