

U.S. ENERGY EFFICIENCY TRADE MISSION

LIST OF COMPANIES PARTICIPATING IN MATCHMAKING MEETINGS

(Should you wish to meet with one of these companies, please contact
vaidyanathan.purushothaman@mail.doc.gov by November 6).

Sl. No.	NAME OF COMPANY	WEBSITE	PRODUCTS / SERVICE	OBJECTIVES
1	Illuminación Natural Inc.	www.iluminacion-natural.com	Illuminación Natural distributes and installs Kalwall translucent panel systems in many countries around the world. The company will promote the sale of Kalwall energy saving, insulated translucent panels throughout India, principally with architects. Kalwall is the most durable, highest quality insulated panel available and enjoys broad acceptance in the U.S. and the UK.	Interested in appointing agents / distributors to promote the sale of Kalwall energy saving, insulated translucent panels throughout India, principally with architects.
2	Sylvan Source	www.sylvansource.com	Sylvan Source delivers technically advanced ultra-clean water systems designed for residential and industrial use. Sylvan Source reduces a broader spectrum of contaminants, at higher concentrations, more effectively and consistently than other technologies. Sylvan Source industrial technology delivers the lowest production costs for clean water and can utilize waste heat and renewable energy sources.	Looking for distributors / wholesalers for residential products.
3	Cemtrex Inc.	www.cemtrex.com	Cemtrex has been an environmental solutions provider for over ten years with new technologies for energy efficiency, specifically in green building applications. Cemtrex offers the Green DCV (demand control ventilation) which can reduce building HVAC consumption by up to 40%. Cemtrex also offers a full array of continuous emissions monitoring systems, turnkey CDM solutions, and air pollution control technologies.	Looking for distributors / wholesalers & agent/distributors who are familiar with building HVAC and mechanical equipment, and/or are suppliers of equipment to companies like Honeywell, Siemens, Carrier, etc.
4	Echelon Corporation	www.echelon.com	Echelon is the only company in the world whose technology is enabling smart energy solutions across a wide range of markets, including commercial buildings, smart homes, industrial plants, mining operations, schools, streetlights, warehouses, electric vehicle chargers, solar farms, and advanced metering infrastructures. Its two main product lines — the NES System for advanced metering infrastructure and the LonWorks infrastructure products for control networking — are the cornerstones of successful energy management solutions in utilities, municipalities, and buildings and homes.	Looking for distributors / wholesalers who understand control networks and the ability to connect devices to a network and manage energy consumption.

5	ICF International	www.icfi.com	For more than 30 years, ICF has been partnering with clients to deal with their critical energy and environmental challenges. ICF regularly advises governments and industry on key topics related to energy efficiency, electric power, fuels, renewables, and climate change. ICF works with major electric and gas utilities to design and implement energy efficiency programs for their customer base.	Interested in meeting direct client organizations (governments, utilities, commercial/industrial firms).
6	Leviton Manufacturing	www.leviton.com	Leviton offers a product line that includes more than 25,000 devices for virtually every conceivable residential, commercial and industrial wiring device need. Leviton is a manufacturer of energy management products and lighting management systems providing a complete energy management solution.	Looking for distributors/ wholesalers/ agents/ sales representatives.
7	Lime Energy Co.	www.lime-energy.com	Lime Energy is a provider of energy efficiency services, products and solutions for large commercial, industrial and institutional clients. They provide engineering, design, and turn-key installation solutions in the fields of energy efficient lighting, heating, ventilation and air conditioning, compressors, pumps, conveyers, heat rejection and recovery and vacuum systems. They also provide renewable energy solutions including solar PV, solar concentrator, wind and biomass energy systems.	Looking to meet end-user clients.
8	Rockwell Automation	www.rockwellautomation.com	Rockwell Automation, Inc. (NYSE: ROK) is a leading global provider of industrial automation power, control and information solutions that help manufacturers achieve a competitive advantage in their businesses. The company brings together leading global brands in industrial automation which include Allen-Bradley controls and services and Rockwell Software factory management software.	Rockwell will provide a list of companies with whom they would like to meet.
9	Evo markets	http://new.evomarkets.com	Evolution Markets worldwide company group, offers a full range of financial services for participants in India's energy, environmental, and clean tech sectors. We excel in structuring trades and transactions -- and in developing creative, cost-effective financial solutions and risk management strategies in every important environmental market worldwide.	Interested in meeting with Joint Venture partners, licensee, agents / representatives, distributors/ wholesalers, franchisee.
10	Signatech	www.signatech.com	The company markets energy efficiency products developed by the US DOE, particularly grid-friendly appliances (GFA). These products can be cheaply installed in white goods that provide grid stability on a mass scale when the imbalances are severe. The stakeholders include consumers, white goods manufacturers and power distribution companies for major urban areas.	Interested in meeting with Joint Venture partners, licensee, end users, white goods manufacturers and franchisees.

11	The Weidt Group Inc.	www.twgi.com	The Weidt Group was established to account for the environmental impacts of buildings. The Weidt Group has also been a pioneering software design firm creating tools for policymakers, utilities, architects, engineers and product manufacturers. They provide new construction energy efficiency programs for utilities. The average energy savings, across all programs, is 30% of the whole-building energy use compared to the local energy code.	Looking for clients who are utility companies, governmental agency policy makers, large developers, architects and engineers.
12	(LSGC) Pegasus Sustainable Century Merchant Bank	www.pcalp.com	Private Equity fund manager with investments in sustainable technologies - energy efficiency, water, building materials and healthy living. Portfolio companies include LED lighting, used oil recycling, portable solar generators, plastic pallets, building materials, etc.	Would like to meet with JV partners and agents who dealing with building materials, LED lighting, portable solar generators, plastic pellets.
13	GE Industrial	www.ge.com	GE wishes to promote Smart Grid – Smart Metering, Delivery Optimization techniques around distribution management , Asset Optimization techniques around Monitoring and Diagnostics.	will be given later
14	Fueltech	www.ftek.com	Fuel Tech has three major business lines: Air Pollution Control Technologies (APC), Energy efficiency and Power Generation improvement technologies (TIFI), and Low NOx Burners (LNB) and OFA system for NOx control.	Interested in meeting with coal fired power plant owners and operators.
15	Deeya	www.deeyaenergy.com	Need GKS questionnaire	will be given later
16	BLUESKY GREENLAND ENVIRONMENTAL SOLUTIONS LLC.	www.blueskygreenland.com	Bluesky Greenland Environmental Solutions LLC. is based in Houston, Texas and provides commercially viable solutions to all fossil fuel burning industries in terms of fuel cost management and reducing harmful emissions.	Although the company presently has sales reps and dealer/ reps, it seeks a main distributor who can supply to the present dealer/ reps and sell to the end user customers.
