Presents

“Green Europe” Special Edition

Clean/Green Technology exporters have a new, economical tool to help them find potential buyers and partners around the world.

Commercial News USA, the official export promotion magazine of the U.S. Department of Commerce, is planning a “Green Europe” special edition of the magazine.

The Commercial News USA special edition will be published in time for distribution at more than a dozen Spring 2010 Trade Shows in Europe, such as the Hanover Fair in Germany, Sustainability Live in the UK and Green Power in Poland.

The Green Europe Special Edition offers U.S. companies an unparalleled opportunity to reach qualified buyers throughout Europe. With strong demand for environmentally-friendly construction materials, energy and water-efficient buildings, and green design, Europe is a strong market for U.S. firms.

Participating in this special edition of Commercial News USA is very affordable:

- **Exporters can place quarter-page listing ads for just \$899, or eighth-page listing ads for just \$499.**
- **Display ads are also available.**

Industry service providers are also invited to participate in the Green Europe Special Edition.

In addition to having an ad in 25,000 copies, participants will benefit from the expertise of the U.S. Commercial Service’s offices throughout Europe.

A special web page also will be developed in order to make an online version of the guide accessible to a larger audience of prospective buyers and partners. Participants in the guide will receive a free basic listing online.

Make sure your company is part of the Green Europe Special Edition of Commercial News USA.

- ❖ The deadline for Space Reservations is January 29, 2010.
- ❖ Questions: Call 1-800-581-8533, Ext. 824 or email advertise@thinkglobal.us or Deborah.Doherty@mail.doc.gov, Global Europe Team Leader, U.S. Commercial Service
